

# LA County Library Workers and Patrons

## Petition to the Board of Supervisors

We, Library workers and patrons of the County of Los Angeles Library Department are deeply concerned about the future of quality public services provided to our communities through the Library system. These services are vital for the development of our children and community in general, and even more during tough economic times when the demand of these services increases. Therefore, we respectfully request that the Board of Supervisors use all resources available in order to keep our libraries functioning and look into other resources to preserve its staffing needs.
